FCC Warning Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user’ s authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

Professional Outdoor Portable Audio System

USER MANUAL

- Please read this Manual carefully before using.
- Although we have taken care of all the features and their operation in this manual, However due to continuous development some changes may be there for which no notice will be provided.
- Please store this manual carefully for future reference.

Above instructions are for reference only, they same can be updated without prior notice.

2 REMOTE CONTROL INSTRUCTION

- POWER
- Select USB/TF/Line /FM/Bluetooth (Audio Input)
- MP3 Track number / FM Station Number
- Equalizer Setting
- Repeat track/Playback all
- Prev Track /Prev FM CH-
- Play/Pause/FM Scan
- Next Track/ Next FM CH+
- Volume down
- Volume up

3 SPECIFICATION

Voltage:.....AC 110~220V/50~60Hz±10%
Consumer Power:.....<150W
Main Channel Frequency response:.....20Hz~20KHz±1.5dB
THD:.....<0.2%
S/N(Main Channel):.....86dB

4 RECHARGE INDICATION

If battery voltage is not enough, The sound will be distorted and will auto poweroff it is time to recharge Please dicontinue usage and manually turn the main Power switch to OFF status. Recharge for 8~10 hours before using again. Once fully charged the unit can use for 4~5 hours.

Attention

Once the battery voltage is low, please fully recharge the unit within 48 hours,If the unit is not used for long time the battery will slowly drain out. Please make sure to recharge the unit atleast once in every 30~40 days to avoid any damage to the battery.Please use original AC adaptor provided connect to AC power outlet and set the main power switch to "ON" postion and connect the device with AC adapter jack pin, charging indicator LED will turn Red indicating the unit is charging. Please charge for 8~10 hours. Once fully charged, the indicator light will turn Green . Please turn the power switch to OFF status.

5 PRODUCT FEATURES

- 1.High output power;
- 2.With Karaoke function;
- 3. Clear natural treble and powerful bass;
- 4.Compatible with DVD/VCD/CD/TAPE/MP3/AUX
- 5.Built-in high-capacity battery
- 6. Sperate Volume Control for Microphone & Guitar.
- 7. With recording function
